

Rogaining Tasmania Position Description

MAPPING OFFICER

QUALIFICATIONS

- Very experienced with mapping software (e.g. OCAD, Open Orienteering Mapper) and GIS systems (e.g. ArcGIS Pro or QGIS)
- Experienced as a competitor
- Ability to produce fit-for-purpose, accurate and legible rogaining maps.

DUTIES

- These will vary depending on the enthusiasm and abilities of the lead setter and their involvement with map production.
- Production of a base map from source (The List, Open Street Map).
- Production of the event map in conjunction with the setters and vetters. Map updates, checkpoint locations, legends and safety information.
- Organise map printing. For minor events using Orienteering Tasmania assistance. For major events obtain quotes from commercial printers, and see the map production process through.
- Collect, or arrange collection, of finished maps.
- Prepare route intention sheets (one per team) for the event. These have a customised map on the reverse side.

DOCUMENTS

REFERENCE

- Past event maps.

TO BE PREPARED

- Event maps.
- As required produce PDF and GeoTiff versions of the maps for use by setters and vetters (used by Avenza Maps mobile phone app).
- If possible and if required, provide printed draft maps for use by setters and vetters.

MATERIALS

- None.

EQUIPMENT

- Computer. Windows-capable or virtual machine for OCAD.
- OCAD mapping software.

LIAISON

- Setters and Veters.
- Map Librarian
- Web and on-line entries to track event numbers
